Q10	Revenue by Age Group	Page 12
------------	----------------------	----------------

Q1 · Total Revenue by Gender

Compares total revenue generated by male vs. female customers.

Gender	Total Revenue (USD)	Share (%)
Female	\$75,191	32.3%
Male	\$157,890	67.7%

Insight: Male customers drive ~67.7% of total revenue (\$157,890), more than double female contribution (\$75,191). Marketing strategies should target both segments while capitalizing on the male majority.

Q2 · High-Value Discount Customers

Customers who used a discount AND spent above the average purchase amount (\$59.76).

Metric	Value
Total qualifying customers	839
Average spend (this group)	\$79.79
Max spend	\$100
Min spend	\$60

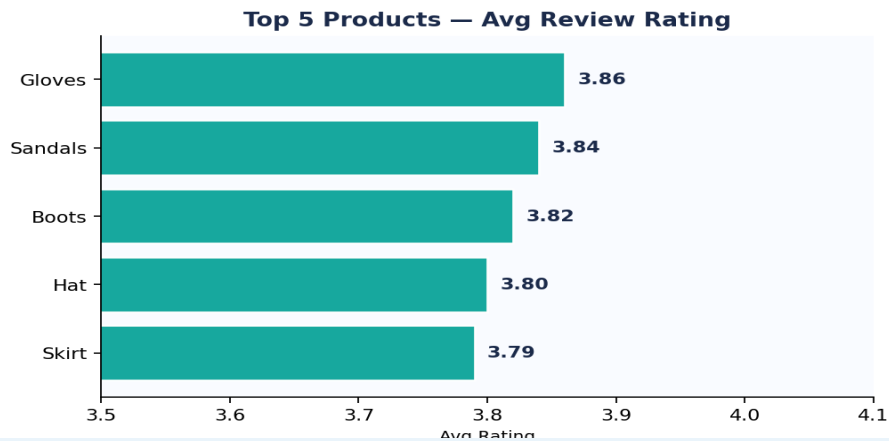

Spend Range	Customer Count
\$60-70	232
\$71-80	205
\$81-90	208
\$91-100	194

Insight: 839 customers used discounts yet still spent above the \$59.76 average — these are high-intent buyers. Personalized loyalty offers for this segment could further increase basket sizes.

Q3 · Top 5 Products by Average Review Rating

Products ranked by customer satisfaction based on average review scores.

Rank	Item Purchased	Avg Rating
1	Gloves	3.86
2	Sandals	3.84
3	Boots	3.82
4	Hat	3.80
5	Skirt	3.79

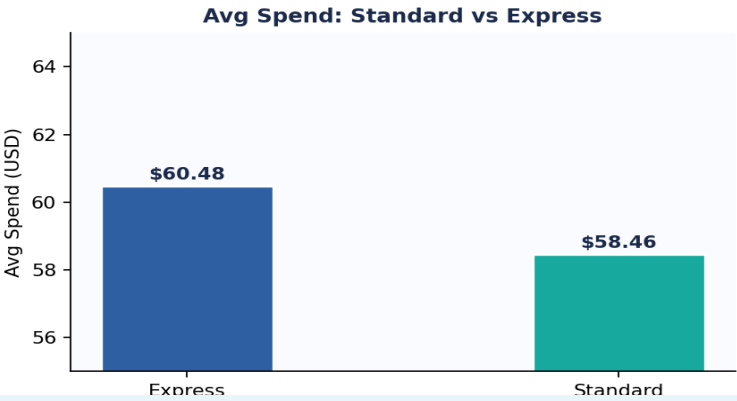

Insight: Gloves lead with an average rating of 3.86, followed by Sandals (3.84) and Boots (3.82). These top-rated items are prime candidates for featured placement and cross-sell promotions.

Q4 · Shipping Type vs. Average Purchase Amount

Compares average spend between Standard and Express shipping customers.

Shipping Type	Avg Spend (USD)	Order Count	Total Revenue
Express	\$60.48	646	\$39,067
Standard	\$58.46	654	\$38,233

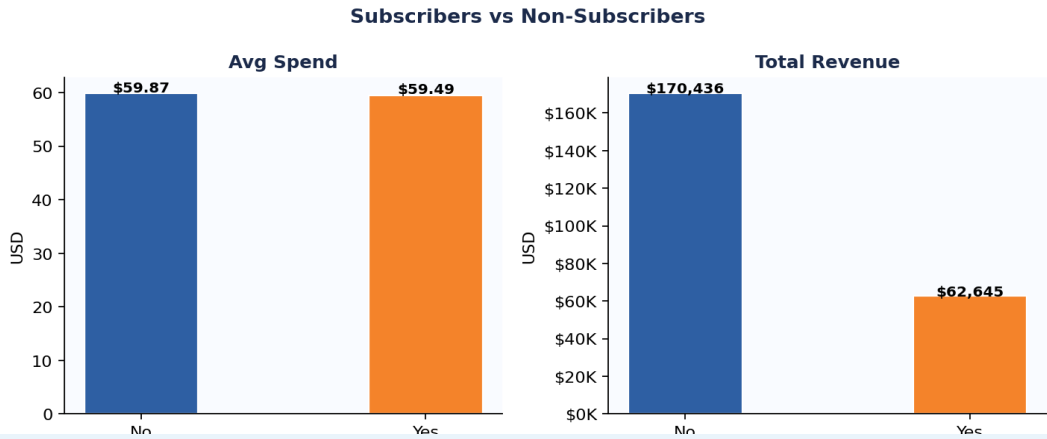

Insight: Express shipping customers spend \$2.02 more on average (\$60.48) vs. Standard (\$58.46). Incentivising express options could modestly increase average order value.

Q5 · Subscriber vs. Non-Subscriber Spend

Compares spending behaviour between subscribed and non-subscribed customers.

Status	Customers	Avg Spend	Total Revenue
No	2,847	\$59.87	\$170,436
Yes	1,053	\$59.49	\$62,645

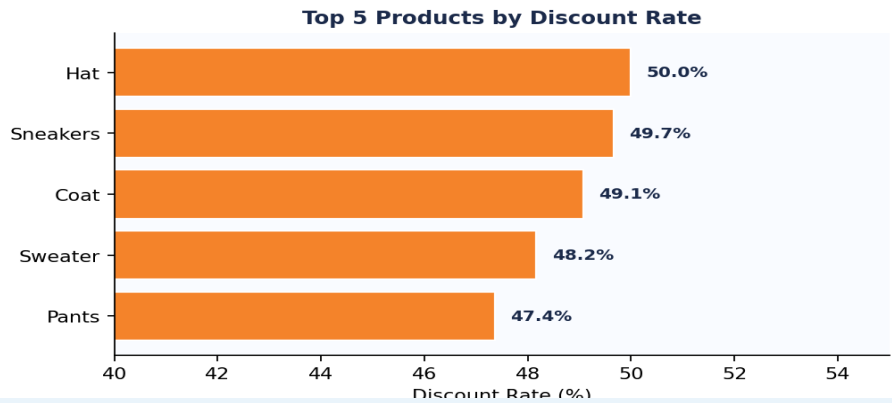

Insight: Non-subscribers slightly outspend subscribers (\$59.87 vs \$59.49) and generate \$170,436 in total revenue — nearly triple that of subscribers (\$62,645). The larger non-subscriber base presents an untapped subscription conversion opportunity.

Q6 · Top 5 Products by Discount Rate

Products with the highest percentage of purchases where a discount was applied.

Rank	Item	Discount Rate (%)
1	Hat	50.00%
2	Sneakers	49.66%
3	Coat	49.07%
4	Sweater	48.17%
5	Pants	47.37%

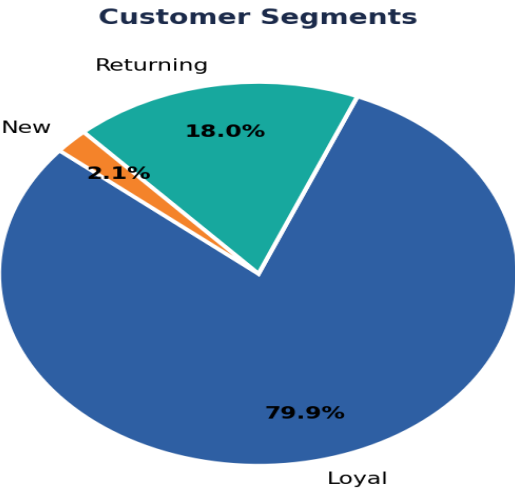

Insight: Hats lead with exactly 50% discount rate, followed by Sneakers (49.66%) and Coats (49.07%). Near-50% rates suggest these products may be heavily reliant on discounts to drive purchases — consider testing higher baseline pricing.

Q7 · Customer Segmentation

Customers segmented by previous purchase history: New (1), Returning (2–10), Loyal (11+).

Segment	Rule	Customer Count	Share (%)
Loyal	11+ purchases	3,116	79.9%
Returning	2–10 purchases	701	18.0%
New	1 previous purchase	83	2.1%

Insight: 79.9% of customers are Loyal (11+ purchases), highlighting a highly retained user base. Returning customers (18.0%) represent a strong pipeline to convert to Loyal, while New customers (2.1%) indicate potential for better acquisition campaigns.

Q8 · Top 3 Products per Category

Identifies the three most purchased items within each product category.

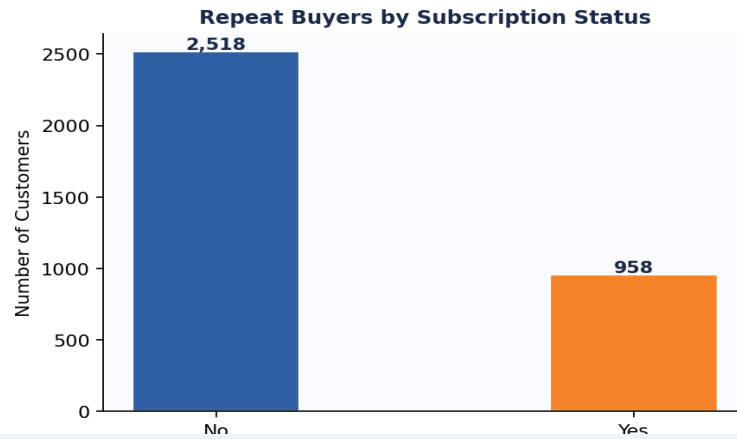

Rank	Category	Item Purchased	Total Orders
1	Accessories	Jewelry	171
2	Accessories	Belt	161
3	Accessories	Sunglasses	161
1	Clothing	Blouse	171
2	Clothing	Pants	171
3	Clothing	Shirt	169
1	Footwear	Sandals	160
2	Footwear	Shoes	150
3	Footwear	Sneakers	145
1	Outerwear	Jacket	163
2	Outerwear	Coat	161

Insight: Jewelry (Accessories), Blouse & Pants (Clothing), Sandals (Footwear), and Jacket (Outerwear) each top their categories. Inventory and marketing resources should be concentrated on these high-demand SKUs.

Q9 · Repeat Buyers and Subscription Status

Among customers with more than 5 previous purchases, how many are subscribed vs. not?

Subscription Status	Repeat Buyers (>5 prev.)	Share (%)
No	2,518	72.4%
Yes	958	27.6%

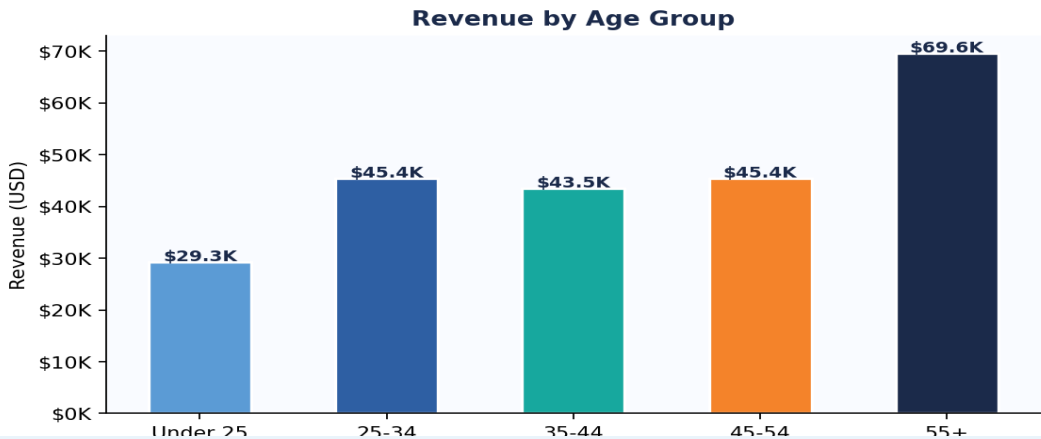

Insight: 72.4% of repeat buyers (2,518 out of 3,476) are NOT subscribed, despite purchasing frequently. This is a significant opportunity — targeted subscription offers to repeat non-subscribers could substantially grow recurring revenue.

Q10 · Revenue Contribution by Age Group

Total revenue segmented across five age bands, revealing the most lucrative demographics.

Age Group	Customers	Avg Spend	Total Revenue	Share (%)
Under 25	486	\$60.20	\$29,258	12.6%
25-34	755	\$60.13	\$45,400	19.5%
35-44	729	\$59.62	\$43,463	18.6%
45-54	752	\$60.33	\$45,370	19.5%
55+	1,178	\$59.07	\$69,590	29.9%

Insight: The 55+ age group is the top revenue contributor (\$69,590 — 29.8%), despite not necessarily being the largest group. The 25–34 and 45–54 segments contribute nearly equally (~\$45K each). Campaigns targeting mature consumers represent the highest ROI potential.
